- No credit/refunds for missed days including, but not limited to sick days, program closures due to weather or health-related causes, family vacations, etc.

Week 1\* (July 1-3; *no camp July 4-5*)

### **Sports Week**

Need we say more? A good old-fashioned sports week where campers will get to play the sports they love, like basketball, kickball, or soccer, or something less familiar like pickleball or badminton. Campers will learn about sports played around the world, and practice throwing, dribbling, ball control, kicking, tossing, aiming and more. From team sports and cooperative games to individual skill development, campers will improve their teamwork, develop their skills, and learn what it means to be a good competitor (if that's your thing). This is a physically active week all about moving our bodies, having fun, developing new skills, and working together as a team!

Week 2 (July 8-12)

### **Sun, Sea, and Sand**

I hope your mermaid tails and fish gills (or maybe just a snorkel and fins) are ready! This week campers will explore from the sand to the sea and beyond. Campers will dive underwater to discover the many varieties of sea life, both real and make-believe, and learn what goes on just below the waves. We plan to spend plenty of time outdoors in the sand, creating, exploring, building, and having fun! As Sebastian the crab said, "We got no troubles, life is the bubbles, under the sea!"

Week 3 (July 15-19)

### **Futuristic Imaginations**

We invite you to come along as we explore the possibilities of the future through new and innovative designs and creations! Campers are encouraged to think BIG and outside the box to develop their own vision of the future. Campers will be utilizing a combination of engineering, art, and design methods to create, build & test their ideas, creations, and inventions. Campers will have the opportunity to collaborate and learn with their friends and build self-confidence through brain-boosting, hands-on STEM activities and experiences.

# Kids Co. Summer 2024

Curiosity + Exploration = Discovery

Week 4 (July 22-26)

## **Splish Splash**

This week is all about playing in and with water! We use water in responsible and fun ways throughout the week making bubbles, painting, watering seeds to make them grow, and so much more. Not only will campers get to play, but we'll also learn why water is so important to us and life on our planet. Campers will have fun with water while learning about water safety, water-based environments, and water conservation. We can't wait to splish splash with you!

Week 5 (July 29-August 2)

## **Myths and Magic**

Get your wands out and your minds ready as we explore ancient tales, mythical creatures, and clever storytelling and games all in one fun and exciting week. Campers will have the chance to bring their ideas to life through performance, pictures, stories, and art. This week is full of enchantment and fun.

Week 6 (August 5-8; *no camp August 9*)

## **Artful Expressions**

We hope you have your creativity hat on this week! Campers will enjoy an immersive week filled with a variety of artistic exploration and expression. We will engage with different types of materials and art forms, such as painting, sculpture, and design – and may even dabble in the culinary arts! We can't wait to have you join us for this week of artful expressions!

Week 7 (August 12-16)

## **Enchanted Forest**

Step into the forest and explore the magic that surrounds you! Get ready for a week filled with imagination, inventiveness, science, and art. Campers will tap into their creativity and grow a beanstalk, write twisted tales, build magical worlds, and so much more. Fairies, elves, and woodland creatures galore - we can't wait for you to join us!

Week 8 (August 19-23)

## **All Around the World**

Come join us for a week of discovery all around the world! Campers will learn about different cultures by trying a variety of foods, listening to an array of music, exploring fashion trends across the globe, and learning about different celebrations and traditions including sharing their own. Most importantly, we will experience a variety of cultures together in a safe and inviting space, where all are welcome and encouraged to learn from each other and share together.

Week 9\* August 26-28; *no camp August 29-30*)

## **We're Going Camping**

Do you like going and spending time in nature? Do you enjoy building Campfires and sleeping in a tent on the ground, or is glamping more your style? Either way, this is the week for you! Campers will get to learn about camping from what gear to bring (don't forget your first aid kit and plenty of water) to making your own supplies – solar oven anyone? You'll learn and sing fun camp songs, and most importantly make yummy camp food including s'mores because let's be honest- who goes camping WITHOUT s'mores?! It's going to be a fun-filled week for all different types of campers!
